Enjoy the Comfort and Security of Home

Our home care services help those who struggle with daily tasks enjoy living in their home.

Caring Companionship

Our qualified staff not only works hard to ensure their clients' needs are met, but they develop longstanding relationships, becoming friends while easing the burden of daily household and personal tasks. We understand that one of the biggest burdens is not having someone to listen, and that's why simply listening and caring is one of our top priorities.

Meal Planning and Preparation

Even simple cooking can become a demanding task for those experiencing limited mobility or other challenges. We will help in every step of the process, from developing a menu based on our clients' preferences and needs to purchasing the food, preparing, and serving it.

Medication Reminders

Many of our clients must adhere to a strict schedule of prescriptions. However, illness or

advanced age can make it difficult remember and maintain a complex schedule. We help our clients stay as healthy as possible by ensuring they are taking their medication when they need it.

Shopping and Running Errands

Circle of Life Home Care professionals can be the legs of our clients. Errands include shopping for groceries and supplies, picking up prescriptions, dry-cleaning drop-off and pickup, and much more.

Light Housekeeping and Laundry

We can keep our clients' homes sparkling through regular light cleaning. This ensures that our clients can enjoy the confidence of a presentable home. Circle of Life professionals also keep laundry clean and fresh.

Assistance with Grooming and Dressing

We help our clients maintain the dignity of a well-groomed and smartly dressed appearance. We do not let illness or advanced age get in the way of looking good. Our professionals can help with light grooming needs, such as hair care, manicures, and pedicures, as well as helping to plan outfits for and dress clients.
